DMR Association Announces Seven New Members

LONDON, UK – 28 July 2011 – The DMR Association today welcomes seven new members. Anritsu Company (USA), fjord-e-design (Germany), Neocom Software Ltd (Russia) and Unicom (Venezuela) join as new Category 2 members. BriCom Solutions (USA), CIM Concepts (Australia) and ESP Wireless (USA) join as Category 3 members.

Mario Micheli (of SELEX Elsag Italy), Chair of the DMR Association said, "I welcome each of the seven new members announced today to the DMR community. These are exciting times for DMR. With twelve organizations joining the DMR Association in the last seven months our membership has more than tripled in only three years. We now have 33 members, with memberships spread across all three categories representing Asia, Europe, Oceania, and North and South America."

NEW CATEGORY 2 MEMBERS

Category 2 memberships are designed specifically for application developers, system integrators, value added resellers, test equipment manufacturers and test houses.

Anritsu Company: Anritsu's core business is test and measurement instruments for communications. Their products are used in design, manufacturing and maintenance of RF and microwave solutions, wired or wireless solutions, and optical solutions, among other data communications applications.

fjord-e-design: fjord-e-design is a radio component design business that is based in Flensburg, Germany. They provide protocol stacks (waveforms) for mobile stations and infrastructure as well as engineering measurement products for wireless communication standards.

Neocom Software Ltd: Neocom Software Ltd develops software products for professional radio communication. The company has wide experience in installation of communication systems, construction of dispatching centres and integration of their software products into computer networks.

Unicom C.A.: Formally, Comunicaciones Moviles Universales, Unicom C.A is based in Venezuela and the DMR Associations' first member from Latin America. Unicom

C.A., has professionals with over 25 years of experience, is an integrator, application developer and assembler of RF Systems, with their main market in South America.

NEW CATEGORY 3 MEMBERS

Category 3 membership is intended for users, regulators and operators of radio communication networks.

BriCom Solutions: BriCom Solutions, based in New Jersey, USA, are a network operator and dealer. BriCom Solutions specialise in wireless communication, mobility integration and telecommunications.

CIM Concepts: CIM Concepts is a network operator and dealer based in Melbourne, Australia. They sell, service and install mobile radio equipment.

ESP Wireless: ESP Wireless is a network operator based in Illinois, USA. ESP Wireless operates 800 and 900 MHz Privacy Plus, 800 and 900 MHz LTR, 220 MHz LTR, T-Band and UHF LTR, as well as UHF community repeaters.

About DMR

DMR (Digital Mobile Radio) is a globally-available open digital radio standard for Professional Mobile Radio users, developed by the European Telecommunications Standards Institute (ETSI).

About the DMR Association

The DMR Association is focused on building on the success of the DMR standard through a combination of interoperability testing, certification, education and awareness. The Association also seeks to ensure that buyers of DMR technology gain value through the competition and choice derived from products built to an open multi-vendor standard.

The DMR Association includes members representing a broad cross-section of the industry, including some of the world's leading device and network suppliers. Members of the DMR Association include CML Microcircuits, Eastern Communications, Funkwerk Koelleda, Fyde Micro, Hytera, Icom, Kenwood, Kirisun, Motorola, Radio Activity, Radiodata, SELEX Elsag, Sepura, Simoco, Tait Radio Communications, Vertex Standard, Aeroflex, Anritsu, Etherstack, fjord-e-design, Neocom Software, Unicom, Advent Ltd, Atlantic Telecommunications, BriCom Solutions, CIM Concepts, Democom, ESP Wireless, Fisher Wireless Services, Pro-Tec Mobile Communications, Rayfield Communications, Repeater Network LLC, and Saia Communications.
